

Calcola le addizioni aperte, mettendo il numero che manca

$$15 + \square = 15 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 6 = 16 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$8 + \square = 13 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 5 = 17 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$11 + \square = 14 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 7 = 11 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 10 = 17 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$2 + \square = 12 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 9 = 17 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$5 + \square = 15 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$3 + \square = 11 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$\square + 7 = 15 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

$$4 + \square = 16 \xrightarrow{\text{perchè}} \square \text{ ----- } \square = \square$$

Calcola le addizioni aperte, mettendo il numero che manca

$$\square + 8 = 11 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$2 + \square = 12 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 3 = 9 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$5 + \square = 10 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 4 = 8 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 1 = 15 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$0 + \square = 13 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 9 = 16 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$5 + \square = 11 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 1 = 10 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$10 + \square = 14 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$\square + 2 = 17 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

$$3 + \square = 10 \xrightarrow{\text{perchè}} \square \text{ ---- } \square = \square$$

Calcola le operazioni aperte, mettendo il numero che manca
Ricordati che addizioni e sottrazioni sono una l'inverso dell'altra!

$$\square + 8 = 20$$

$$20 - \square = 11$$

$$15 + \square = 20$$

$$20 - \square = 10$$

$$\square + 3 = 20$$

$$20 - \square = 7$$

$$12 + \square = 20$$

$$20 - \square = 4$$

$$\square + 4 = 20$$

$$20 - \square = 13$$

$$\square + 1 = 20$$

$$20 - \square = 0$$

$$0 + \square = 20$$

$$20 - \square = 1$$

$$\square + 9 = 20$$

$$20 - \square = 16$$

$$10 + \square = 20$$

$$20 - \square = 18$$

$$\square + 13 = 20$$

$$20 - \square = 5$$

$$17 + \square = 20$$

$$20 - \square = 15$$

$$\square + 19 = 20$$

$$20 - \square = 2$$

$$16 + \square = 20$$

$$20 - \square = 9$$
